Matrix
Left-facing Built-in Gas Fireplace

Faber helps you create the atmosphere and look you desire for your unique space. Our built-in Matrix models let you design your fireplace - to viewing angles and finishes.

Left-facing Built-in Gas Fireplace

Venting Compatibility
 Dura Vent adapter (included)
 ICC adapter TM-5AA8 (sold separately)

Beautiful Burning Logs

Burners are hidden beneath the log to produce flames that organically wrap around the logs for an incredibly authentic fire experience.

Faber Five Burner

The Matrix patented five burner gas fireplace provides the ultimate control - choose all burners or front only and adjust the gas flow to manage heat output.

Premium Log Set

Realistic charred log set to maximize the illusion of depth and the appearance of burning firewood. Combine with loose embers for a custom display.

Light Module

Casts a firelight glow within the media for a truly lifelike effect that can be enjoyed year round, with or without the flames.

Battery Back-up

Enjoy your fireplace during power outages with the battery back-up gas valve.

Invisimesh

A protective layer of Invisimesh surrounds the glass barrier of the fireplace and provides a safe surface for children and pets.

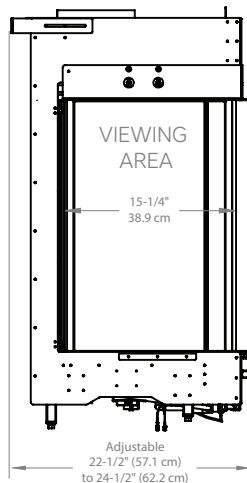

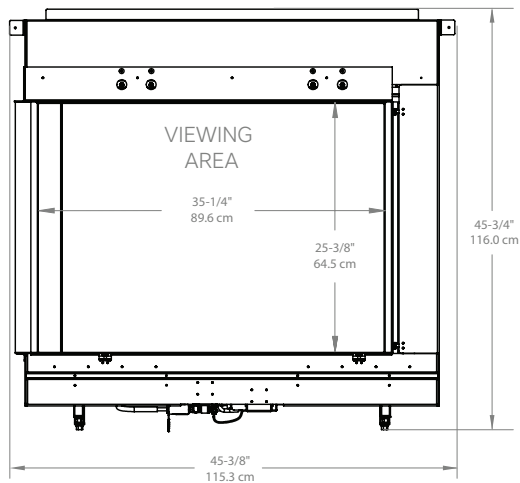

Adjustable Heat Output

Enjoy more nights in front of the fire using the fully adjustable gas valve and split burner to manage heat output.
